SCHOLARSHIP APPLICATION (page 2 of 2)

Awards require final approval by the Financial Aid office.

1. If the award is released and a student then chooses not to go on a study abroad program, a hold will be placed on the student's account until the full scholarship is repaid.
2. If a student should choose to withdraw and return to the U.S. before completing the designated program, the student will be required to repay all scholarship money in full. If it is not repaid, a hold will be placed on the student's account until the full scholarship is repaid.
3. Students must use all scholarship funds toward the study abroad program identified on their Jones College of Business Study Abroad Scholarship Application. These funds cannot be used for other purposes.
4. This award will not be released until students are fully accepted into the Jones College.
5. All award funds will be released into the student's MTSU account.
6. If there is a balance on the student's MTSU account, the scholarship will automatically be applied to this balance first.
 - If the student made a payment toward their regular tuition for the semester by credit card or web check, the Business Office will first apply any credit balance (scholarship amount, in this case) toward that account rather than depositing the credit to the student's chosen direct deposit account. If not, then the student should set up direct deposit with the MTSU Business Office for the award to be transferred into a designated personal account (i.e. checking, savings, etc.).

I have read the above information and agree to comply with the requirements.
